Md Sadique Mahmud

Data Analyzer / Developer

Portfolio: Sadique
github.com/yourscoder
linkedin.com/in/sadique-mahmud889

Ambitious tech professional blending deep data analytics acumen with strong software engineering capabilities. Expert in transforming raw data into actionable intelligence through advanced manipulation, statistical analysis, and compelling visualizations using Python, SQL, Tableau, and Power BI—while crafting elegant, efficient code and systems. Eager to contribute as a hybrid Data Analyst, developing intelligent applications, automating workflows, and embedding analytical rigor into software solutions. Committed to fostering data-informed engineering excellence and driving measurable business outcomes in a forward-thinking environment.

SKILLS

Languages	c, c++ , c# , Javascript, Python,PHP
Tools and Platforms	Git, GitHub, VS Code, Android Studio, Google Colab, MySQL, LaTeX, Power BI , Ms Excel
Hardware Experience	IOT devices and Raspberry pi integration with cloud services
Os compatibility	Windows and linux based os
Communication	English (fluent speaker and writer), Bangla

TECHNICAL EXPERIENCE

Team Contributor / LandChain: A Blockchain-Based Land marketplace System Sept 2024 — Dec 2025
Thesis Project Aust, Dhaka

- A marketplace where sellers can post land for sale and buyers can communicate.
- Land ownerships are verified by govern bodies and authenticated by blockchain.
- Uses hyperledger fabric to structure the backbone network.
- Implemented smart contract logic for tamper-proof transactions.

Major contributor / Smart Waste bin with IOT and machine learning integration along with Blockchain Jul 2025 — Oct 2025
Internet Of Things course project Aust, Dhaka

- Mechanized smart waste bin with waste classification.
- Uses Cnn based edge computing models and made a comparison among them .
- Includes blockchain based user registry and reward system.
- Detects users with biometrics (fingerprint).
- Runs all computing operations on Raspberry pi devboard.

Main contributor / Hand and Finger Tracking Robotic Arm Controller Jan 2025 — Mar 2025
Self Interest Dhaka, Bangladesh

- Remotely accessed robotic arm with help of arduino and computer vision.
- Monitor actual hand movements and moves the robotic arm likewise.
- Remembers gestures noted earlier.

Main Contributor / An AI-Driven Clinical Decision System for Symptom-Based Disease Category Prediction Nov 2025 — Jan 2026
Self Interest Dhaka, Bangladesh

- A chatbot that collects patient symptoms and predicts disease categories using DistilBERT.
- Fully data-driven approach with NLP preprocessing, no rule-based logic, ensuring adaptability to free-text inputs..
- Provides probabilistic predictions with disclaimers, suitable as a clinical decision support tool (non-diagnostic).

EDUCATION

Bachelor of Science in Computer Science and Engineering , Ahsanullah University Of Sciene And Technology	Jan 2026
Higher Secondary Certificate , Dhaka Imperial College	2018 — 2020
Secondary School Certificate Motijheel Govt Boys High School	2008 — 2018

ACTIVITIES

ICCIT 2025 International conference ,Chittagong, Author of a research paper, Team member	Fall 2025
IOT lab course project students presentation : Project Presenter , Aust	Fall 2024
Aust Computer Science and Engineering Department poster presentation: Research poster Presenter	Spring 2024
Aust programming contest participant	Spring 2023
